Create account

Congratulations! You now have a Dropbox account!

To download Dropbox, click “Download” in the upper right hand corner of the website.

Download

The installer should automatically download. Once downloaded, double click the installer in your downloads folder, and you will be asked for your account information. Dropbox is now a folder on your desktop. You can find your Dropbox folder in two places: in your system’s folder view as well as on your desktop’s tray.
